HEAVY SELLING HAS BUT LITTLE EFFECT

Wheat is Erratic and Declines Heav-Hy; Corn and Oats Suffer from Rentizing and Each Close at Lower Figures.

CHICAGO, May 12.- In spite of heavy selling to secure profits, provisions today scored another good advance on 'Change. Pork closed 22½c over yesterday, while tard gained 10c, and ribs 22½c per 100 lbs. Closing prices were a shade under the best. Wheat was erratic as usual, but at the exense of the price. July closed at a declin-2%c, after covering a range of 5%c. May was practically nominal, selling down to \$1.60, and closing at \$1.65, a net loss of 14c. September lost 1.3-8c. Corn and oats suf-fered from realizing, losing good early ad-

vances, and closing %c net lower. Cable advices from Liverpool available at the opening in the wheat pit were en-couraging to the bulls. Near rutures in the couraging to the outs. Near interes in the college and advances of 1½02d in distant futures, in spite of the 4c decline here yesterday. On this news first trades in July here were at \$1.120.1124, an improvement of 1½02c. Continental cables and fine growing weather at the southwest, combined with a continuation of neavy primary receipts, created a bearism teeling among the new who ventured into the pit. These bearism features of the situation, which were lost sight of in the recent excitement, supplied the bears with the courage to oppose the opening upward trend of prices. The strong party that had for two weeks played on the fears of the snorts so adroity mad evidently made its turn and was wen satisfied in leaving the market to the "taneers." July, after touching \$1.11, and rossing up to \$1.124, eased oft to \$1.10. Chicago receipts were \$37 cars, against 27 cars just year. Minneapolis and Duntth reported by cars, compared with \$77 the year before. Primary receipts aggregated \$50,000 busnels, against \$25,000 busnels of wheat and flour. July declined steadily after the first hour to \$1.043, which was the prevaling price at 12 octook. Then the nervousness of shorts was clearly illus-English market showed only a trifling de-

board clearances amounted to 75,000 busness or wheat and hour. July declined steadily after the first hour to \$1.0\frac{1}{2}\text{, which was the prevailing price at 12 octock. Then the nervousness of shorts was clearly illustrated. News of the destruction of an armour elevator by fire caused the bears to rush July up to \$1.0\text{ in their efforts at covering. When it became known that omy 100,0\text{ in their hours of wheat was destroyed, the market slumped again to \$1.0\text{ in their prevailing quotation at the close. Prices Generally Rule Below the

Level Established on Wednesday. NEW YORK, May 12.—The natural reacion from yesterday's buoyant tendency in Wall street was supplemented today by some positive elements of depression, as a consequence of which prices generally ruled below yesterday's level all day. The

some positive elements of depression, as a consequence of which prices generally ruled below yesterday's level all day. The speculative world apparently took a rather serious view of the affair at Cardenas. In spite of all assurance that the loss incurred was trivial from a military standpoint, the shedding of first American blood had a depressing 'influence which no amount of reasoning could destroy. There was an unsettling of the conviction felt yesterday that the Spanish Cape Verde fleet had certainly returned to home waters. A reaction in Spanish 4s in London and Paris also dissipated some of the oppression that their recent advance foreshadowed a move toward peace by Spain. The absence of authoritative reports from Admiral Sampson and his fleet induced some hesitation among dealers in stocks. There was in addition a depressed market for Americans in London before the opening here and there was free selling of the international stocks for London account during the early trading. It was not surprising, in view of all these conditions, that some of the recent buyers of stocks should have been inclined to take profit and the bears should be encouraged to attack the market. Such a stubborn resistance was shown, however, to the first dip of prices that extreme caution was developed about putting out short contracts. The market displayed an equal reluctance to advance with any degree of vigor, Covering by shorts in the late dealings overcame a portion of the losses, but declines are a point or over in many prominent stocks. There were special stocks scattered through the list that maintained a show of strength, notably Consolidated Gas, which rose buoyantly at one time 8 points. The Union Pacific, Denver & Gulf securities, Rock Island, Cotton Oil stocks and some of the high priced investment stocks were notably firm.
